Feel EDUCATION 100% dedicated to digital dentistry

Designed by two dentists for dentists

Feel formation is located in an exceptional place. In the south of France, near Montpellier, in the center of a dental clinic Feel Dentaire and a dental laboratory, Emotion Lab.

In a quiet place, in small groups, in the heart of a pine forest, this place is very motivating and conducive to learning.

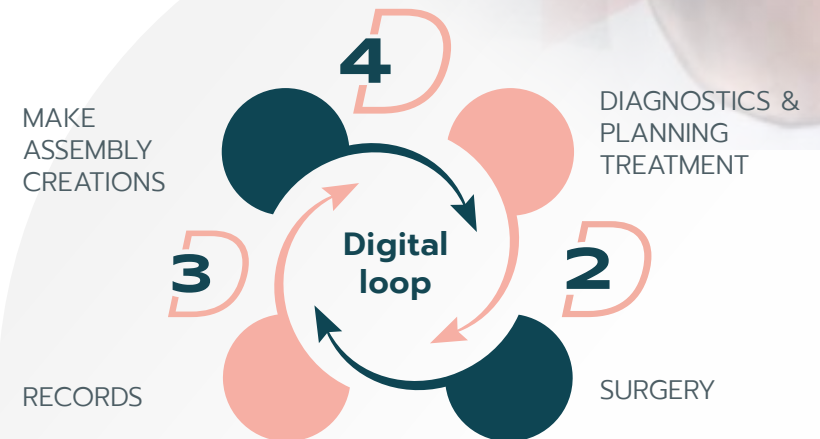

Doctors Felenc & Lethuillier
teach at Feel FORMATION digital
dentistry, which promotes digital
techniques in dentistry.

/ What is the CONCEPT 2D3D4D ?

Doctors Felenc & Lethuillier have created and registered the CONCEPT 2D3D4D®, it is a unique concept based on 3 pillars: **PRECISION - COMFORT - TIME SAVING.**

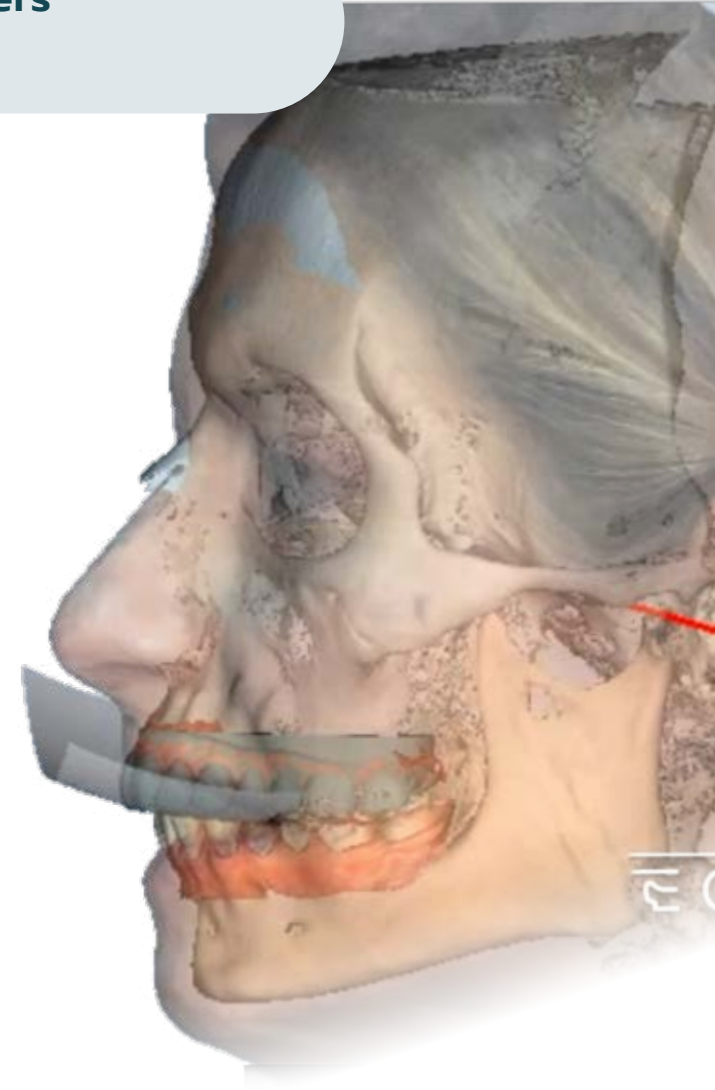

- It is a new way of working to optimize your production in the office. It is **a method** to integrate new digital technologies in your practice.
- The CONCEPT 2D3D4D® will allow you to create a **digital avatar** of the patient to save time and increase quality in your treatments.
- The CONCEPT 2D3D4D® allows you to understand and master the **digital loop** to improve your therapeutic management.

/ A CONCEPT **2D4D** design for you!

Intended for all dentists, whether they are general practitioners or specialists, who want to improve their daily practice.

- You feel that it will be necessary to take this **digital turn** which is imposed on our profession and you are looking for a complete training dedicated to digital dentistry.
- You want to improve the care of your patients by more efficient and precise treatments.
- You already have experience in a dental practice and you want to resume an innovative **clinical training**.
- You are a young practitioner and you want to integrate immediately these new ways of working in your practice.

Values of the CONCEPT 234

Save time in your treatments

(evaluate up to 36% in complex cases compared as compared to working in analogical work).

Increase your competence by integrating new practices

Increased productivity

Because more precision and fewer redos.
An increase in treatment plan acceptance rates (from simple to complicated).

A differentiation from other to other dental practices dental practices and in particular groups of dentists.

More comfort for all, with a more efficient process

Take more pleasure un your practice and revitalize your practice.

What type of training to choose:

Presential

e-learning

Team education

**In-person or online alone or with a team,
learn about digital dentistry at Feel Academy.**

- **5 training modules in 7 hours each**
(Prof. JD Orthlieb Occlusion 6 hours).
- **4 modules in person** in Montpellier,
with a limited format of 12 people, between two and four
workshops per session.
- Ending with the Occlusion session of Professor ORTHLIEB.
It is strongly recommended to train in blended learning,
mix e-LEARNING and PRESENTIVE training in order to
experience the live and the group effect, and to review
the modules followed via e-learning, in order to fully
understand the numerous processes.

**It's is preferable, but not obligatory, to do the training
modules in order.**

IN-PERSON TRAINING

4 In-person modules in Montpellier, in a limited format of 12 people, with between two and four direct participants per session.

of Advanced Interdisciplinary
Dentistry».

Author of 144 publications
and 7 books..

“

Feel education accompanies the digital transition of your practice through online or in-person training at the Feel Dental Clinic, the Dentaire Clinic and the Emotion Lab, come and discover the procedures live ”

Drs S. Felenc & J. Lethuillier

Drs. Felenc & Lethuillier

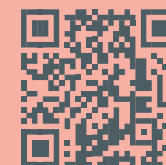

Are graduates in dental surgery (1998, 2002) they continue their training by passing several CES (fixed prosthesis and periodontology) as well several DU (Implantology, Aesthetic and aesthetic and restorative dentistry and periodontology).

They quickly became involved in transmission and innovation through multiple actions: lecturers in the framework of the DUORE, members of various professional professional associations, president of Afoch 34 and member of of the Afoch 34.

In 2017, they created Feel Formation to boost dentists in their digital transformations, In December 2019, they make it real with a e-learning website And they created training courses online.
